

SOLUTIONS TO FIT YOUR NEEDS

We make metal recycling simple and can deliver more value from your waste streams.

We serve a variety of businesses with our metal waste collection and can identify the best recycling service for your needs.

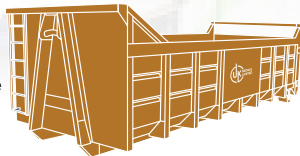

OUR SERVICES INCLUDE:

- Wide range of bins, skips and stillages
- Custom made containers for specialist applications
- Lockable skips and stillages
- Compliance with waste legislation

TAKE YOUR PICK!

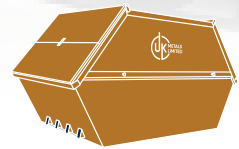

Hooklift containers

Also known as bins or roros, our hooklift containers range from 15-45 cubic yards.

Enclosed skips

Our enclosed skips are perfect for storing a range of materials, adding extra security for high value metal.

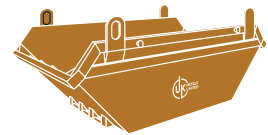

Open skips

Our open skips come in a range of sizes to suit your needs and are suitable for a range of material.

Lifting skips

Our lifting skips are certified for lifting with a crane.

Stillages

Our stillages are extremely versatile as they are stackable and lockable.

Please get in touch and find out what we can do for you

Our experienced account manager will visit your site to advise which containers will get the most value from your metal.
